Re: Petition submitted by On-Site Systems, Inc. to include Bolton area

Dear Mr. Waddell:

On September 28, 1999 On-Site Systems, Inc. submitted a petition to amend its Certificate of Convenience and Necessity to include the Bolton area of Shelby County. In the petition we stated that Mr. Jim Rout, Mayor of Shelby County, had not responded to the developer's request for sewer. We are pleased to report that Mr. Rout has now responded to that request and his letter is attached. Please include this additional document with our petition. If you have any questions, please give me a call.

Sincerely,

Charles Pickney, Jr.

Re: Request for Sanitary Sewer Service

Dear Mr. Broome:

I enjoyed meeting with you several weeks ago and discussing your plans for the future development of your property in unincorporated Shelby County. Based on that discussion as well as subsequent telephone conversations with you, I expect that in the near future you will be responsible for the development of a quality residential subdivision or other project in Shelby County. I applaud your efforts.

As regards your request related to the County extending sanitary sewers to your property, Shelby County is currently not in the business of constructing sanitary sewers. The County Board of Commissioners has not chosen to establish a sanitary sewer system in the unincorporated areas of Shelby County. Instead, sanitary sewer service is provided in the unincorporated areas of the County by the local municipalities, such as Memphis, Bartlett, Germantown and Millington.

I hope that this letter has fully clarified Shelby County's role in providing sanitary sewer lines in unincorporated areas of the County.

Sincerely,

Jim Rout
Shelby County Mayor
